When entering the facility, go through the guard shack. The guards at the gate will have your names from the registration link.

Once through the gate, park only to the left of the building in visitor parking. Do not park on the right side.

Once parked, you will see the main entrance at the center of the building to the right of the flags. That's the reception area. Enter there to check in. You will be photographed during the check in process. Allow plenty of time to complete this process.

Once checked in, you will be escorted to a meeting room on the 2nd floor.

Rules:

- Bring your ID with you.
- Do not bring a laptop or tablet inside the facility.
- You can bring your cellphone, but must turn off the wifi and Bluetooth.
